DETAILED ACTION

Response to Amendment

After careful review of Applicants remarks and amendments, Claims overcome the prior art rejection (Kennedy US Pat.# 6,101,419)). However, the examiner states the new ground of rejection below.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Nguyen et al. (US Pat. # 6,122,566).

Regarding claim 1, Nguyen et al. disclose a method for scheduling tasks in a wafer processing system comprising steps of adding at least one of said plurality of operations to an operation list (see col. 6, line 45- col. 8, line 21); switching an

Application/Control Number: 09/677,087

Art Unit: 2125

scheduling all operation in said operation list that are in the active state to run on said wafer processing system (see col. 8, lines 10-21).

Regarding claims 2 and 7, Nguyen et al. disclose conditions for adding an operation to said operation list (see col. 6, line 45- col. 8, line 21).

Regarding claims 3 and 8, Nguyen et al. disclose conditions for switching an operation list to an active state (see col. 8, lines 10-21).

Regarding claims 4 and 9, Nguyen et al. disclose a recipe operation (see col.7 lines 31-55).

Regarding claim 5, et al. Nguyen disclose a recipe operation and a non-recipe operation (see col. 7-10).

Regarding claim 10, et al. disclose a data structure for an operation to be performed on a wafer processing system comprising a first level including conditions for adding said operation to an operation lit and conditions for switching said operation to an active state (see col. 6, line 45- col. 8, line 21). Regarding claim 11, et al. Nguyen disclose a list of modules to be used by the operation (see fig.3 col. 5, line 60-col.7, line 15).

Regarding claims 12 and 13, these claims are rejected for the same reasons applied above rejected claims 4 and 9.

Conclusion

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Douglas Lee, whose telephone number is

Application/Control Number: 09/677,087

Art Unit: 2125

(703) 305-6907. The examiner can normally be reached on Monday-Friday from 8:00AM- 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo Picard, can be reached on (703) 308-0538 or via e-mail addressed to [leo.picard@uspto.gov]. The fax number for this Group is (703) 872-9306. Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and

should be addressed to [doug.lee@uspto.gov].

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 306-5631.
